

SWO Tribal Research Office

Tribal Entity Information Gathering Projects

TEIGP, Tribal Entity Information Gathering Projects, is directly related to the SWO Research Code. The code gives tribal program information collection projects exemption from the Local Research Review Board (LRRB) processes. None the less the data collected and products created from these projects are valuable resources to the tribe. Past and future TEIGP may be submitted to the Research Office for placement in the tribes own data repository for record keeping and possible future use by the tribe.

Quarterly Newsletter

July 2021

Why was the Research Office developed?

To safe guard Tribal and Tribal Member's information and personal data.

Did you know that...

Another role it has is to store and provide access to information.

Protecting Our Data Sovereignty Matters

Data = Muza ska for providing an array of improvements to everyone's quality of life within the LTR.

Prior Information Gathering Project Data Repository Submission Form

This form is for submitting prior project records to the Research Office for cataloguing and data repository purposes. Tribal entities are encouraged to share prior and future information gathering projects to serve purposes such as: reporting, grant writing, program improvement, and other nation building efforts.

The data repository does not pertain to the following projects:

- Journalism
- Criminal justice or criminal investigative activities in support of defense or tribal security
- Legally mandated reporting or surveillance
- Anonymous meeting evaluations

.....

Please complete the form to the best of your knowledge. Submit de-identified project related documents, such as: recruitment materials, surveys, consent forms, and most importantly data findings and products. *If submitting documents for a prior project that had been submitted, then only fill out *sections & submitter section.*

Tribal Entity (project source):

Project title *(project code):

Date of project (approximate if uncertain):

Purpose of project *(description of documentation):

Source of subjects (i.e. Employee, Elders, Guardians, Patients, Minors 0-17 years old)

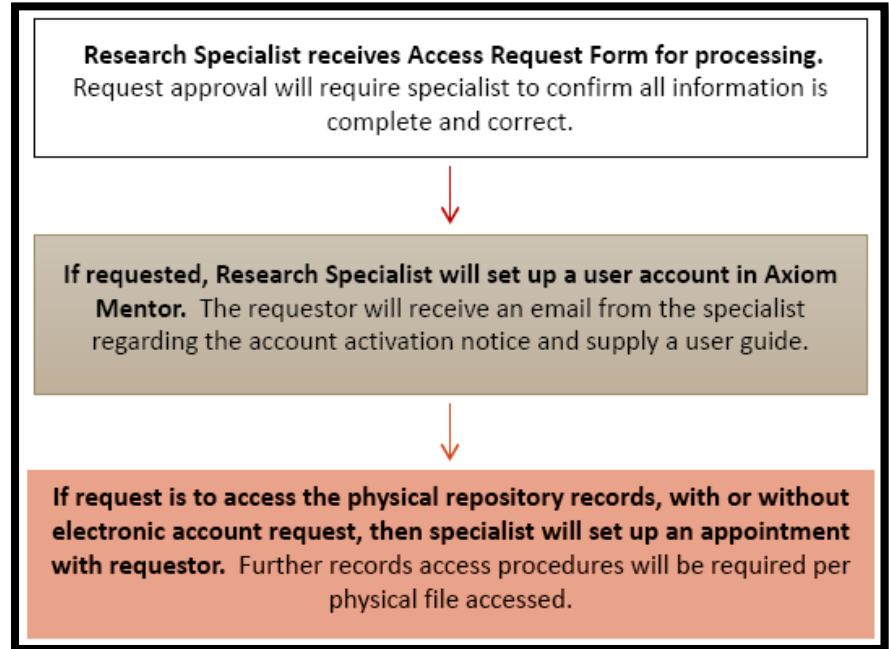

Other information (part of another project, ideas of which types of programs might use data):

Tribal Data Repository

SWO covered entities needing tribal specific data for a report, policy development, grant writing, or other work related task may now search the data repository. The data repository contains any past data and findings that have been submitted to the Research Office. Please contact the office if your program would like to access the repository.

MISSION

The current mission of the Sisseton-Wahpeton Oyate Research office is to enhance the tribal research infrastructure by continuing to build the research review capacity, education through community engagement, and exercising tribal sovereignty through research data management. The main objective of the Tribal Research office is to improve the overall status of all Tribal members through relevant, tailored, and culturally sensitive research as outlined in the SWO Chapter 77 – “SWO Research Code.”

Q & A

Would you like to become a part of the SWO LRRB as either an Alternate or Associate member?

The LRRB is comprised of tribal, non-tribal, feminine, masculine, scientist, and non-scientists as a thorough review takes many lenses. Please contact Siyo for more information.

What information would you like to see in future SWOTRO Newsletters?

The research office is here the Oyate and your input is greatly appreciated. Please contact Siyo with suggestions and ideas.
